

Our Commitment: A 100% successful stay with the "Camping Qualité" label

Because your holidays are precious, the campsite La Ferme du Bord de Mer is committed every day to offering you the warmest welcome and impeccable services. Our campsite is proud to have been awarded the Camping Qualité label since 2022, the only official label that guarantees the quality of your stay in total objectivity.

What is the Camping Qualité label? The quality of our establishment is governed by strict and precise guidelines. With more than 250 demanding criteria, this label drives us to constantly design and improve our services. To guarantee total transparency, our campsite is regularly inspected by independent auditors.

Our Commitments: The 6 pillars of our quality promise For the entire team at La Ferme du Bord de Mer, this label translates into 6 concrete commitments throughout your stay:

- 1. A warm welcome** Hospitality, availability, attentiveness, and efficiency are given special attention by our entire team. We are here to ensure a peaceful, pleasant, and friendly stay from the moment you arrive in Barfleur.
- 2. Impeccable cleanliness** Throughout the opening period, cleanliness and hygiene are guaranteed everywhere on the campsite. From the reception to the pathways, including our rental accommodations and our recently renovated sanitary blocks, everything is rigorously maintained.
- 3. Accurate and true information** No bad surprises! We provide complete, clear, and accurate information about our establishment: a precise description of the facilities, opening hours of the reception and services. Our rates are clearly stated and strictly applied.

4. **A well-maintained private pitch** We take all necessary measures to offer you a private pitch and guarantee the greatest tranquility. Whether it is our rental accommodations or our pitches (including our stable motorhome pitches facing the sea), the grounds are tastefully arranged to blend perfectly into our beautiful Norman landscape.
5. **A valued and respected environment** Located in the unique setting of the Val de Saire, our campsite is committed to preserving nature and biodiversity. We develop our grounds with respect, constantly seeking adapted protection solutions to preserve our coastline.
6. **A strong eco-responsibility** We manage our establishment in a sustainable way: rigorous waste management, energy savings, water management (such as our eco-friendly waterless equipment projects), and a strong connection to the local life of the Cotentin.

We wish you a very pleasant stay at the campsite!

Pierre-Emanuel and the entire team of Camping La Ferme du Bord de Mer
